

Input Assessment GOTS

This section especially for Dyes, Pigment, processing Aids and other Auxiliaries manufactures to follow an Assessment procedure by GOTS to get their Inputs (Dyes & Auxiliaries) Approved as all chemical inputs s.a. dyestuffs and auxiliaries used must meet certain environmental and toxicological criteria for further used in GOTS Certified Wet processing facility..

Dyes and Auxiliaries can be apply to OneCert for getting Assessed through existing GOTS version by submitting a very simple Application form, which has drafted by OneCert to facilitate to thier Manufacturers. See **Application packet** for Input Assessment. We Requested applicants to also specify below along with filled Application forms of OneCert-

- MSDS which is in any of the format of ISO 11014-1, ANSI Z400.1-2004,1907/2006 EEC(Reach), 2001/58/EEC and GHS(Global Harmonized System).
- Original Test Reports for each product for mentioned Testing parameters which I have listed in attachment.
- The CAS number for the entire ingredient
